FURNITURE FITTINGS & COMPONENTS

ABOUT US

OUR MISSION

To be the UK's most trusted partner for quality furniture components.

WHO WE ARE

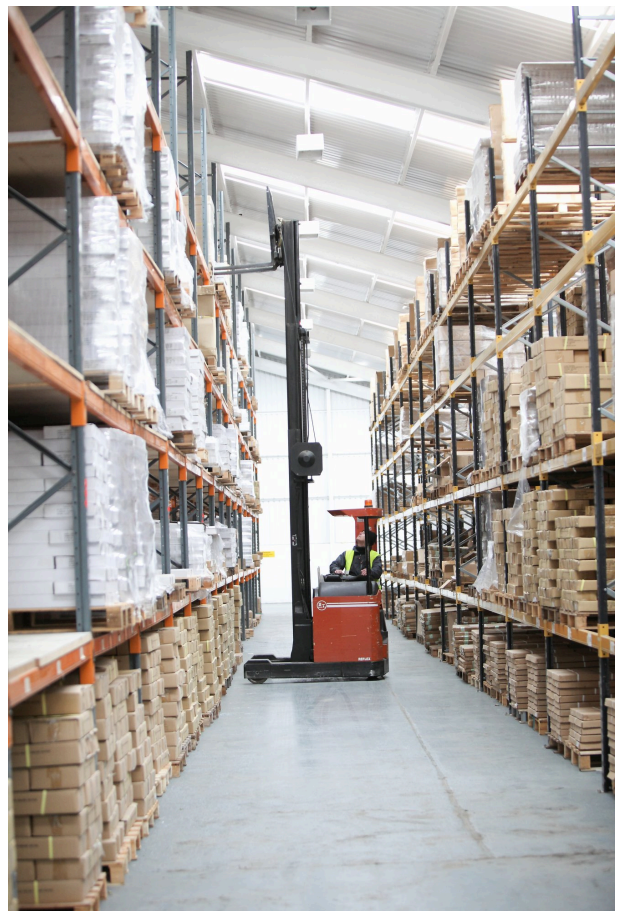

Since 2000, Eurofit Systems has helped UK furniture manufacturers build with confidence.

From our base in Beverley, East Yorkshire, we supply quality fittings and components to medium and large OEMs and distributors nationwide, backed by the expert support and dependable supply chain that we believe long-term partnerships are built on.

As direct importers, we control our supply chain from source to shelf, giving our customers sharper pricing, consistent quality and the stock availability their production schedules demand.

Our range covers the full breadth of furniture hardware, from hinges, runners and handles to fixings, fasteners and connectors.

Everything needed to build, assemble and finish, all from one trusted partner.

Westwood Collection

INTERIOR DOOR HANDLES

Available Finishes

Antique Brass • Matt Black • Satin Brass • Satin Nickel

The Westwood lever is a study in controlled taper. A stepped square neck broadens into a flat-topped blade that widens across its length before falling away to a cleanly chamfered, squared tip. Every edge is crisp and faceted, giving Westwood a transitional character that sits as easily in a period room as a contemporary one.

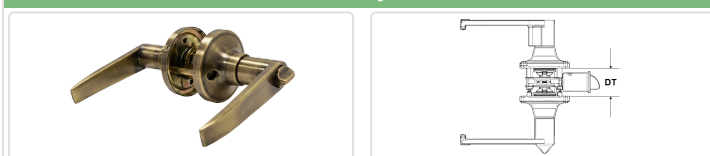

Available as Passage handles for general-use doors and Privacy handles with an integrated turn button, giving you complete control over privacy and function room by room. Each handle arrives complete with a colour-matched Quick-Fit tubular latch and strike plate.

Premium zinc alloy construction with a stainless steel rosette and lever ensures these handles perform reliably for decades while holding their finish.

KEY FEATURES

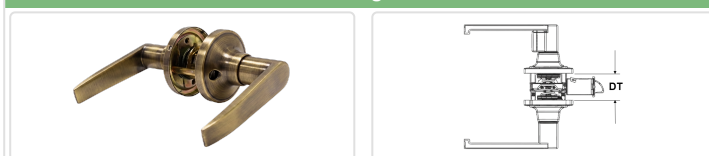

- ✓ Turn button function
- ✓ ANSI/BHMA A156.2 Grade 3
- ✓ Internal door handles
- ✓ Available in Passage & Privacy functions
- ✓ Zinc alloy handle with stainless steel rosette & lever
- ✓ Brass cylinder
- ✓ Door thickness 35 - 45mm
- ✓ Easy to install and simple to operate
- ✓ Set includes Quick-Fit latch, dust box, strike plate and screws
- ✓ Tested to 200,000 cycles.

Minster Collection

INTERIOR DOOR HANDLES

Available Finishes

Matt Black • Satin Brass • Satin Nickel

Minster is the most expressive shape in the collection. The lever rises from a domed circular rose, arcs through a long sweeping curve and settles into a softly rounded tip — one flowing line with no hard edge anywhere along it. Where the rest of the collection is drawn with a ruler, Minster is drawn with a French curve.

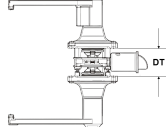

Available as Passage handles for general-use doors and Privacy handles with an integrated turn button, giving you complete control over privacy and function room by room. Each handle arrives complete with a colour-matched Quick-Fit tubular latch and strike plate.

Premium zinc alloy construction with a stainless steel rosette and lever ensures these handles perform reliably for decades while holding their finish.

Barmston Collection

INTERIOR DOOR HANDLES

Available Finishes

Antique Brass • Matt Black • Satin Brass • Satin Nickel

Barmston strips the lever back to a single straight line. A short cranked neck carries a long, slim rectangular blade with square edges and a flat, squared-off end — no curve, no swell, no decoration. It is the sharpest and most architectural profile in the collection, and the one that sits most quietly in a minimal interior.

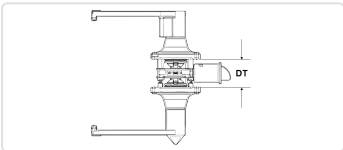

Available as Passage handles for general-use doors and Privacy handles with an integrated turn button, giving you complete control over privacy and function room by room. Each handle arrives complete with a colour-matched Quick-Fit tubular latch and strike plate.

Premium zinc alloy construction with a stainless steel rosette and lever ensures these handles perform reliably for decades while holding their finish.

KEY FEATURES

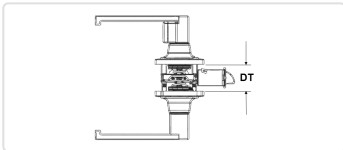

- ✓ Turn button function
- ✓ ANSI/BHMA A156.2 Grade 3

Longcroft Collection

INTERIOR DOOR HANDLES

Available Finishes

Matt Black • Satin Brass • Satin Nickel

Longcroft takes the same disciplined straight run as Barmston and rounds every surface of it. The lever is a smooth round-section bar, cranked at a flat disc rose, finishing in a softly domed end that fills the palm. There is no edge to catch or snag a sleeve, making it the most comfortable handle in the collection to use.

Available as Passage handles for general-use doors and Privacy handles with an integrated turn button, giving you complete control over privacy and function room by room. Each handle arrives complete with a colour-matched Quick-Fit tubular latch and strike plate.

Premium zinc alloy construction with a stainless steel rosette and lever ensures these handles perform reliably for decades while holding their finish.

Door Hardware

Accessories

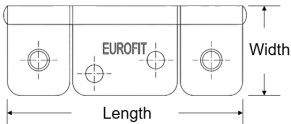

A door needs more than a handle to work properly. This page brings together the hinges, screws and latches that complete the installation, all finished to match the Beverley Collection handle ranges so a door hangs, closes and latches in one consistent colour.

Our three leaf hinge is the direct companion to those handles. At 89 x 33mm in 1.2mm steel, it is supplied in Black, Antique Brass, Electro Brass and Nickel Plated — the same finishes as the levers themselves, so hinge and handle sit together on the door without a mismatch. Three interleaved leaves keep the hinge slim and let the door close tight to its frame.

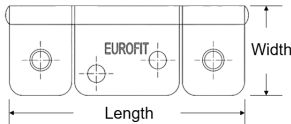

Completing the set, the Hi-Lo countersunk Type 17 screw drives cleanly into softwood and manufactured board in four matching finishes, and the Quick Fit latch is offered in 60mm and 70mm back sets to suit standard internal doors.

Black 3 Leaf Hinge
