FURNITURE FITTINGS & COMPONENTS

ABOUT US

OUR MISSION

To be the UK's most trusted partner for quality furniture components.

WHO WE ARE

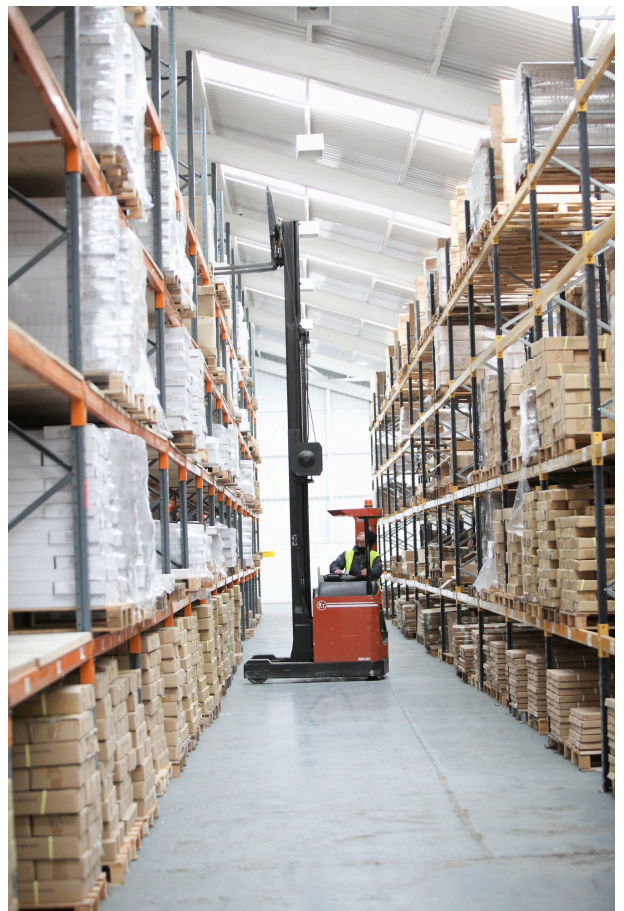

Since 2000, Eurofit Systems has helped UK furniture manufacturers build with confidence.

From our base in Beverley, East Yorkshire, we supply quality fittings and components to medium and large OEMs and distributors nationwide, backed by the expert support and dependable supply chain that we believe long-term partnerships are built on.

As direct importers, we control our supply chain from source to shelf, giving our customers sharper pricing, consistent quality and the stock availability their production schedules demand.

Our range covers the full breadth of furniture hardware, from hinges, runners and handles to fixings, fasteners and connectors.

Everything needed to build, assemble and finish, all from one trusted partner.

The Bayside is a compact round pedestal base designed for commercial and hospitality spaces where considered design and dependable performance go hand in hand. Its 500mm diameter footprint makes it an ideal choice where space is at a premium, without compromising on the clean, professional aesthetic that designers and buyers expect.

Available in Chrome and Black, the 500mm Bayside base pairs with Coffee, Dining, and Poseur column heights, creating a focused, easy-to-specify system that adapts across a range of interior styles and table configurations. Bases and columns are sold separately, giving you the flexibility to coordinate finishes or introduce a touch of contrast to suit the overall scheme. Bolt-on assembly keeps installation straightforward and consistent, a practical advantage when equipping a full floor or multi-venue fit-out.

** Overall height includes base plate. Add table top thickness for finished table height.*

Cafe & Coffee Shops	Restaurant Dining
Hotel Bars & Lobbies	Office Breakout Areas
Bar & Poseur Seating	Bistro & Canteen

KEY FEATURES

- 500mm diameter round base — Chrome and Black finishes
- Three column heights: Coffee, Dining and Poseur
- Bases and columns sold separately — mix finishes freely
- Robust pressed steel construction suitable for contract use
- Protective floor-friendly base underside
- Easy to assemble
- Compact 500mm footprint ideal for space-efficient layouts
- Consistent styling across all height options

Golden Gate - Cable Managed

FLAT ROUND TABLE BASES & COLUMNS

Available Finishes

Black • Stainless Steel • White

The Golden Gate Cable Managed range brings a clean, architectural look to flat round table bases without compromising on practicality. Built around an 8mm mild steel plate base and a 102mm diameter steel column with a welded top plate, each base delivers the stability demanded by contract environments while discreetly routing power and data cabling out of sight through the column. Available in three base diameters and three column heights across Coffee, Dining and Poseur specifications, the range supports table tops up to 1400mm and can be mixed and matched across black, brushed stainless steel and white finishes to suit the setting — from hotel bars and restaurant dining rooms to meeting rooms, breakout areas and retail interiors. Adjustable levelling feet, anti-twist assembly and a 5-year structural warranty complete a base that's engineered to look considered and stay that way.

* Overall height includes base plate. Add table top thickness for finished table height.

Meeting Rooms	Restaurant Dining
Hotel Bars & Lobbies	Office Breakout Areas
Conference Areas	Retail Environments

KEY FEATURES

- Cable Managed 60mm internal hole diameter

The Golden Gate is Eurofit's flagship pedestal base system; a trusted foundation for contract interiors across hospitality, retail and workplace environments. Its classic round profile and commercial-grade steel construction give it an enduring versatility that has made it a go-to choice for specifiers working across diverse and demanding projects.

Available in Brushed Stainless Steel, Matt Black and Gloss White, the Golden Gate offers a refined finish palette that sits comfortably across interior styles. Bases and columns are sold separately, giving specifiers the freedom to mix finishes within a single cohesive range; whether coordinating for consistency or contrasting for effect.

Four base diameters and three column heights provide full flexibility across Coffee, Dining and Poseur applications, making the Golden Gate versatile and practical.

** Overall height includes base plate. Add table top thickness for finished table height.*

Golden Gate

Mix & Match - Bases & Columns

Additional Mix & Match Options

- Whatever the project, the column and base system is built to work together. All round and square columns are compatible with the Golden Gate, Mega and Sotra bases, so you can specify freely across the range rather than being locked into fixed combinations. Choose a round column for a softer, classic profile or a square column for a cleaner, contemporary line, then match it to the Golden Gate, Mega or Sotra base that best fits your application. One consistent fitting standard across the range means fewer variables to manage, simpler ordering, and a reliable result every time.

• **DISCLAIMER** - Bronze finish will be available October 2026.

The Mega is a heavy-duty rectangular twin-column base engineered for larger table tops that demand more than a single-column pedestal can offer. Constructed from 8mm mild steel plate with a substantial 750 x 400mm footprint and twin 80mm * 80mm square steel columns, it delivers the rigidity and load capacity that conference, boardroom and banqueting environments require.

Available in Brushed Stainless Steel, Black, Bronze & White, the Mega brings a commanding presence to large-format settings without sacrificing the clean lines expected in premium interiors. It shares its column range with the Sotra square base, a practical advantage that simplifies stockholding and opens up complete finish flexibility across both ranges.

** Overall height includes base plate. Add table top thickness for finished table height.*

Cafe & Coffee Shops	Restaurant Dining
Hotel Bars & Lobbies	Office Breakout Areas

The Sotra brings a clean, architectural square-base form to commercial and domestic interiors, built on a robust 10mm steel plate finished in grade 202 stainless steel, powder-coated Black or White and new for 2027 Bronze plated.

Adjustable levelling feet accommodate uneven floor surfaces, and the square footprint provides a stable, contemporary alternative to round pedestal designs. Bases and columns are sold separately and fully interchangeable across all four finishes, giving specifiers and manufacturers the flexibility to match or contrast across any project.

** Overall height includes base plate. Add table top thickness for finished table height.*

Café & Coffee Shops	Restaurant Dining
Hotel Lobbies	Office Breakout
Bar & Poseur Areas	Domestic Interiors

KEY FEATURES

Sydney Table Base

ROUND TABLE BASES & COLUMNS

Available Finishes

Black • Chrome • White

The Sydney is a no-compromise round pedestal base for commercial and hospitality settings where clean styling and reliable performance matter. A round base in Black, Chrome and White that pairs with Coffee, Dining and Poseur column heights, keeping the range simple to specify and quick to order.

Bases and columns are sold separately, allowing finish matching or deliberate contrast combinations, and the straight forward bolt-on assembly ensures fast, consistent installation across multiple units on site.

Every column is supplied complete with a cast iron four-arm top plate and counterweight, ready to install straight from the box, a detail that keeps large fit-outs moving without unnecessary complication. Columns are compatible with Vancouver table range.

** Overall height includes base plate. Add table top thickness for finished table height.*

Cafe & Coffee Shops	Restaurant Dining
Hotel Bars & Lobbies	Office Breakout Areas
Bar & Poseur Seating	Bistro & Canteen

KEY FEATURES

Vancouver

ROUND TRUMPET STYLE TABLE BASE

Available Finishes

Black • Chrome • Silver • White

The Vancouver brings the timeless appeal of a trumpet-profile pedestal base to commercial and hospitality environments; a classic form that has earned its place in everything from boutique cafés to large-scale dining and event spaces.

The three base sizes; small, large and XL combine with Coffee, Dining and Poseur column heights across 4 finishes, creating a versatile system with the range to suit virtually any table format or interior scheme. Bases and columns are sold separately, giving specifiers and designers complete mix-and-match freedom to coordinate or contrast across a project.

Every column is supplied complete with a cast iron four-arm top plate and counterweight, ready to install straight from the box, a detail that keeps large fit-outs moving without unnecessary complication.

** Overall height includes base plate. Table top and fixings NOT supplied.*

Tubular Table Legs

60MM & 80MM DIAMETER

Available Finishes

Silver • Chrome • White • Black • Textured Grey • Bronze

Eurofit's 60mm and 80mm diameter table legs offer a versatile and cost-effective foundation for commercial and office furniture across the full height spectrum; from 375mm coffee table through to 1100mm poseur applications, giving specifiers the range to cover virtually any project requirement in a single, consistent system. All legs feature 30mm threaded adjustment for precise levelling on uneven floor surfaces; a practical detail that ensures a clean, stable finish regardless of site conditions. A wide choice of powder-coated and plated finishes makes it straightforward to coordinate with any furniture scheme or material palette.

** All heights are leg length before adjustment. Table tops and fixings NOT supplied. Images for illustrative purposes only.*

Office Desking	Meeting & Conference
Cafe & Breakout	Education & Training
Poseur Height	Kitchen Breakfast Bar

Hairpin legs are a versatile, design-led table leg solution suitable for furniture around the home and workplace. Available in seven heights from 100mm to 860mm, the range covers everything from low cabinet feet and coffee tables through to full-height desks and breakfast bars. Shorter legs use a 2-rod design with 10mm rod thickness, while taller legs step up to a 3-rod design with 12mm rods for added stability on larger furniture. All legs are steel construction and are sold as a set of 4 with screws included. Protective rubber feet are available separately.

** Sold as a set of 4 legs. Screws included (suitable for tops 25mm+ thickness). Table tops not supplied. Images for illustrative purposes only.*

Coffee Tables	Desks & Workstations
Breakfast Bars	Benches & Seating
Cabinets & Sideboards	Soft Furnishings

KEY FEATURES

- Sold as a set of 4 legs — screws included
- 2-rod design (10mm) for heights 100mm to 350mm
- 3-rod design (12mm) for heights 410mm to 860mm
- Steel construction with Black & Bronze powder coat finish
- 3-rod recommended for benches, desks and longer applications
- Protective rubber feet available separately (TF44000)
- Simple screw-fix installation — no specialist tools required
- Seven heights covering cabinet feet to poseur table height

CONFIGURATION GUIDE

Application	Height	No. Rods	Rod Diameter
Furniture	100mm	2	10mm
Soft Furnishings	200mm	2	10mm
Low Coffee Table	300mm	2	10mm
Bench	350mm	2	10mm
Coffee Table	410mm	3	12mm
Desk / Dining Table	710mm	3	12mm
Breakfast Bar	860mm	3	12mm

2 - ROD HAIRPIN LEGS

Height	Black	Clear Lacquer	Weight	Box Quantity
Furniture	TF42104BK	—	1.63kg	Set of 4

Flip Top Table Frame

TABLE FRAME

Available Finishes

Black • Brushed Nickel

The Flip Top Table is built around a simple idea: a single table that moves, folds and stores out of the way when it isn't needed — without compromising on how it looks while it's in use.

The feet are finished in Brushed Nickel against a black textured powder coat, giving it a clean, contemporary presence that sits comfortably in executive settings and everyday working environments alike. Beneath the styling is a robust construction engineered for daily movement and reconfiguration.

Four braked castors make repositioning straightforward, so rooms can be reset between sessions in minutes rather than hauled around by two people.

Tops fold vertically and tables wheel together into a compact stack, clearing floor space for other uses and simplifying storage between events. Operation is light enough for one person, and the locking action holds the top securely in both positions.

** Overall height includes base plate. Add table top thickness for finished table height.*

Office	Conference / Meeting Rooms
Canteens	Exhibitions
Educational	Village Halls

KEY FEATURES

- Stylish design
- Fine textured uprights
- Brushed nickel feet
- Ideal for space saving
- Top tilts vertically 90 degrees
- Lockable swivel castors

- Suitable for commercial contract use

ORDERING GUIDE

- Supplied without top
- Choose frame to suit table top length
- 1 complete set = Connecting bar, Feet, Castors and Uprights

FURTHER INFORMATION

- Full technical datasheet available on request.

Eurofit Folding Table Frames offer a practical, space-saving solution for environments where flexibility is as important as function — from conference suites and event spaces to multi-use dining and education settings. Sold as a pair, each set features a robust steel tube construction with a fold-flat mechanism that makes storage and reconfiguration effortless. Adjustable feet accommodate uneven floor surfaces, and integrated plastic stacking blocks ensure safe, stable storage when frames are not in use.

Two profile options allow specifiers to tailor the choice to the setting: straight foot frames deliver a clean, contemporary line suited to modern interiors, while curved foot frames offer a wider stance where additional stability is a priority.

** Frames sold as a pair. Table tops and fixings NOT supplied. Overall height is nominal frame height without top.*

- Schools & Colleges
- Conference & Training Rooms
- Exhibition & Events
- Community & Village Halls
- Office Canteens
- Temporary Workspaces

KEY FEATURES

- Sold as a pair — one set fits one table
- Fold-flat design for compact, easy storage and stacking
